DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 13-16,19-24,30-32 and 35-40 are rejected under 35 U.S.C. 102(e) as being anticipated by Pak et al. (7,144,406).

Pak discloses in figures 2-3, an apparatus for transplanting a hair graft having the limitations as recited in the above listed claims, including: a housing that includes an actuator chamber 37 and a hair graft chamber 36 for housing a loaded hair graft 12, a vacuum source (see vacuum 1, col. 3, lines 46-51) coupled to the housing to provide suction through a rod 34 at the open distal end for drawing a hair graft into the hair graft chamber, where the rod is inside the housing, and where an actuator 30 moves the end of the rod substantially so that a loaded hair graft is delivered to a scalp wound, where the vacuum source coupled to the actuator chamber, and where the actuator includes a plunger 115 connected to the rod, and where the plunger is able to move the rod, where the actuator includes a piston 31 inside the actuator chamber, and where the device further includes a spring 71 coupled to the piston, where the spring is capable of moving the end of the rod to the first position from the second position., and where the device

Art Unit: 3734

further comprises a projection at 116 which connected to the hair graft chamber, the projection extends in parallel to the central axis and beyond the open distal end of the housing.

Allowable Subject Matter

2. Claims 17-18 and 33-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Response to Arguments

3. Applicant's arguments filed 10/27/2006 have been considered but are moot in view of new ground(s) of rejections. Applicant is asked to please refer to the modified prior art rejections above where examiner addresses applicant's concerns regarding prior art rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
